

LACTALIS INDIA FIGHTS COVID-19

It's been more than four months, whole world is grappling with COVID 19. It created a havoc, killing hundreds of thousands of people across the world. But there is another challenge looming of bringing economy back on track. Considering this wherever possible, many countries are relaxing the norms of lockdown and allowed businesses to start the operations. For us there were no holidays and it's business as usual for us as we are dealing in essential commodity. Though there are relaxation, Lactalis India won't be compromising on any of the protocols set for the quality, hygiene and security of our employees, sales team and channel partners. We are committed to deliver the quality to our consumers, as always.
